### Summary

Ademola Madelewi is a FrontEnd Developer with a strong foundation in both personal and programming skills. He has completed a Mobile Web Specialist course through Google ALC, showcasing his commitment to enhancing his technical expertise. Ademola has also participated in a software development bootcamp at Dreamcube Technologies, further solidifying his knowledge in the field. He is eager to apply his skills in frontend development to innovative projects and is seeking opportunities that allow for growth and learning. His educational background highlights his dedication to continuous professional development in the tech industry.

### Experience

#### Mentor and Front-End Developer

Jan, 2022 - Present (Seasonal)

##### [HerTechChoice Bootcamp](#)

- Trained and mentored 50 women in front-end development basics, significantly enhancing their skills and fostering their professional growth.
- Designed and implemented a custom user dashboard, facilitating video sharing, task management, and participant onboarding, streamlining the entire process.
- Led workshops and hands-on sessions, providing practical insights and fostering a collaborative learning environment.
- Maintained consistent communication with participants, offering guidance and support to ensure their successful completion of the bootcamp.

#### Front-End Developer

Mar, 2021 - Present

##### [Dominitech, New York, USA. \(Remote\)](#)

- Developed website components using modern frameworks, contributing to the creation of responsive and high-performance web applications.
- Participated in code reviews with the development team, providing constructive feedback and ensuring code quality and consistency.
- Implemented best practices in front-end development, leading to a 20% reduction in page load times and improved application performance.
- Maintained clear and concise documentation for all development processes, facilitating seamless knowledge transfer and collaboration among team members.
- Engaged in continuous learning and professional development, staying updated with the latest trends and technologies in front-end development.

#### Front-End Developer

Mar, 2020 - Jan, 2021

##### [Elfrique, Lagos state, Nigeria. \(Remote\)](#)

- Implemented automated testing for each component, ensuring reliability and reducing the likelihood of errors in the final product.
- Coordinated effectively with back-end developers to address and resolve front-end issues, ensuring seamless integration and functionality.
- Ensured the application adhered to industry standards for accessibility, making it usable for a wider audience.
- Actively participated in code reviews, providing constructive feedback and fostering a culture of continuous improvement and learning.

#### Front-End Development Intern

July, 2019 - Jan, 2020

##### [Hotels.ng \(HNG\)](#)

- Successfully completed 100 hours of intensive training in web development, mastering HTML, CSS, and JavaScript to build robust front-end solutions.
- Developed and maintained efficient, well-designed code, ensuring high performance and reliability of web applications.
- Created four innovative web applications addressing societal challenges, demonstrating a strong ability to apply technical skills to real-world problems.
- Collaborated with team members to enhance user interface designs, improving user experience and engagement.

### Education

#### Mobile Web Specialist

July, 2019 - November, 2019

##### [GoogleALC](#)

#### Software development bootcamp

March, 2019. - June, 2019.

##### [Dreamcube technologies](#)

#### BSc. Plant Biology

2014 - 2018

##### [University of Ilorin](#)

### Skills

#### Personal Skills

Excellent written and verbal communication skills

Highly organized and efficient

A very quick learner with a passion

Ability to work independently or as part of a team

Ability to motivate

#### Programming skills

HTML5

CSS3

Bootstrap

Material UI

JavaScript

React

React-Native

NextJs

NodeJs

Redux

GraphQL

Typescript

Docker

Jest

React testing library

Storybook

Styled-Components

Firebase

SASS

Strapi (headless CMS)

Algorand SDK

Tailwind

AWS Quicksight
